

When we decided to put an addition on to our home, we were both excited and nervous about what we were getting ourselves into. Mike Jacques, his father and crew made the whole experience exciting and very special. During the project, friends and family would ask how things were going and they were always so surprised when we told them that it was actually a lot of fun to experience the whole process.

In the future we will not hesitate to recommend the Jacques and hope that they will put us on their list of references. It will be our pleasure to recommend both them and their work. Their slogan "Quality First" is what we experienced everyday with the Jacques both in the planning and execution of our renovation.

Michael and donna
